Class 03 Notes

- Learn AI with Hisham - 14 Oct 2026

- Design a website with Claude.
- Today design only, development next class.

- Start in a Claude project.

- Research trends and keywords first.

- Make the homepage say wow.

Key Takeaway

Design first, build next.

Step 1 - Project Setup

- Make a project in Claude.
- Add instructions and context.
- Attach brand files and design system.
- Add memory so Claude remembers.
- Scheduling and tasks inside the project.

Key Takeaway

Good context gives good design.

Step 2 - Design Homepage

- Ask for a homepage design.
- Animate the hero header.
- Add mouse over effects on links.
- Ask Claude to improve the design.
- Aim for wow on first landing.

Key Takeaway

Tell Claude exactly what to improve.

Finish - SEO and Next Step

- Research with Google Trends.
- Find keywords with Ubersuggest.
- Use keywords on your website
- Check traffic in Analytics
- Next class: develop and publish LIVE.

Key Takeaway

Design is done, development is next.
