Class 01 Notes

Learn AI with Hisham - 12 Oct 2026

- Learn AI
- build with AI
- automate with AI
- One skill set, many uses.

→ Social media, content, apps, websites.

- Start simple, practise daily.

Key Takeaway

The person who can use AI will move ahead.

Step 1 - Talk to Claude

- First learn how to talk to the AI agent.
- Give clear commands, say what you want.
- Share your point of view clearly.
- Claude can make presentations and dashboards.
- A 15 slide presentation was made in the class.

Key Takeaway

Clear input gives better output.

Step 2 - Build and Automate

- Claude for Desktop for Windows and Mac.
- Chat mode for talking, Code mode for building.
- Make small apps with Artifacts.
- Schedule tasks so work runs on its own.
- An agent can work while you do other work.

Key Takeaway

Learn, build, then automate.

Finish - Business and Money

- Once you can do it, you can earn from it.
- Build a portfolio of your work.
- Website traffic can come from search and AI.
- Design ideas from Dribbble and Pinterest.
- No coding background needed to start.

Key Takeaway

Start today, do not wait for perfect.

Class 02 Notes

Learn AI with Hisham - 13 Oct 2026

- Build things, go LIVE.
- A book was made with Claude in the class.
- An agent can check email on schedule.
- Ask, or you will not get an answer.

Claude ✓

Key Takeaway

AI

Do not just learn, build and publish.

Step 1 - A Book with Claude

- Ask Claude for a table of contents.
- Add images where they are needed.
- Ask to optimise it for Amazon Kindle rules.
- Make a cover for the book too.

The book format is EPUB for Kindle.

Key Takeaway

Tell Claude the full detail first.

Step 2 - Scheduled Agent.

- Schedule a task for a fixed time.
- Claude can check email at that time.
- Reply to leads in your own style.
- Keep the conversation going with clients.
- You check the result later.

Key Takeaway

The agent works on schedule, you stay in control.

Finish - Go LIVE.

- A hybrid app works on Android and Apple.
- Use Claude for websites and search keywords.
- Video and motion graphics are possible too.
- A 20 dollar Claude plan was used in examples.

↳ Do not ask, do not get.

Key Takeaway

Build it, publish it, then improve it.

Class 03 Notes

- Learn AI with Hisham - 14 Oct 2026

- Design a website with Claude.
- Today design only, development next class.

- Start in a Claude project.

- Research trends and keywords first.

- Make the homepage say wow.

Key Takeaway

Design first, build next.

Step 1 - Project Setup

- Make a project in Claude.
- Add instructions and context.
- Attach brand files and design system.
- Add memory so Claude remembers.
- Scheduling and tasks inside the project.

Key Takeaway

Good context gives good design.

Step 2 - Design Homepage

- Ask for a homepage design.
- Animate the hero header.
- Add mouse over effects on links.
- Ask Claude to improve the design.
- Aim for wow on first landing.

Key Takeaway

Tell Claude exactly what to improve.

Finish - SEO and Next Step

- Research with Google Trends.
- Find keywords with Ubersuggest.
- Use keywords on your website
- Check traffic in Analytics
- Next class: develop and publish LIVE.

Key Takeaway

Design is done, development is next.

Class 04 Notes

Learn AI with Hisham - 19 Oct 2026

- A database driven website, made LIVE today.
- Design from Class 03, developed in Class 04.
- Hosting and domain on Hostinger.

- Claude takes browser control to build it.

Key Takeaway:

- From design to LIVE in one class.

Step 1 - Hosting and Domain

- Buy Hostinger premium hosting.
- Connect your domain.
- Choose hosting with a database server.
- Register, then let Claude take control.
- Claude fills the steps and proceeds.

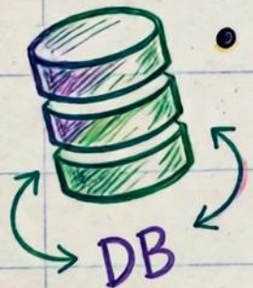

Key Takeaway

- Domain plus hosting first, then build.

Step 2 - Build and Publish

- Upload design files to Claude.
- Claude installs WordPress, theme and setup.
- Add contact form and spam protection.
- Enable SEO, make the site fully functional.
- Then publish it LIVE.

Key Takeaway

- Check it, then go LIVE.

Class 04

Finish - SEO and Traffic

- Make the site SEO, AEO and GEO friendly.
- Fix broken URLs and keywords.

- Audit an old site with Claude.
- Next: Search Console, Analytics and leads.

Key Takeaway

- LIVE is not the end, traffic the goal.

Class 05 Notes

Learn AI with Hisham - 20 Oct 2026

- Voice agents
- Search Console and Analytics.
- A voice agent can
- answer calls for you.

→ It can read your website and explain services.

- It can collect details and book a call.

Key Takeaway

- An agent answers, explains and books.

Class 05

Step 1 - Voice Agent

- Use ElevenLabs for the voice.
- Get a US local number with Twilio.

- The agent reads pages from your website.

- It answers in a human like voice.
- It works even from Pakistan.

Key Takeaway

- Your business can answer, day and night.

Step 2 - Collect and Book

- Ask the caller name and business.
- Ask for an email address.
- Note what service they need.
- Book a strategy call with you.

→ End the call with courtesy and thanks.

Key Takeaway

- Collect, then book, then follow up.

Class 05

Finish - Search and Analytics

- Set up Google Search Console.
- Verify your domain with DNS help from Claude.
- Check Google Analytics for traffic.
- See where visitors come from.

Key Takeaway

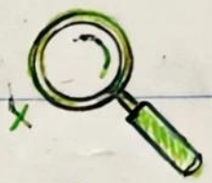

- Know your traffic, then improve it.

Class 06

Class 06 Notes

Learn AI with Hisham - 21 Oct 2026

- Audit SEO and build social presence.
- Check the website first.
- Fix content and structure.
- Book meetings easily.
- Reach the right people.

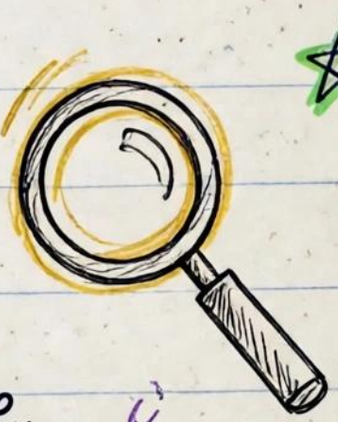

Key Takeaway

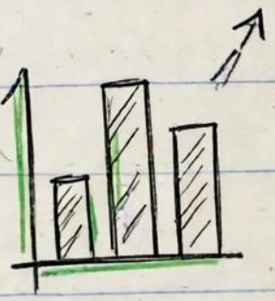

- Audit first, then grow.

Class 06

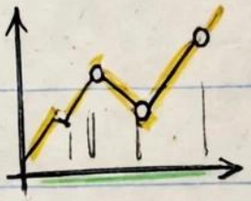

Step 1 - Audit the Website

- Ask Claude to audit the website.
- Check pages and structure.
- Find weak and broken parts.

- Fix keywords and content.
- Aim to rank in search results.

Key Takeaway

- Fix what the audit finds.

Class 06

Step 2 - Content and Booking

- Write articles every week.
- Refresh articles with images.
- Add a free booking calendar.
- Put it on the contact page.
- Let visitors book a meeting.

Key Takeaway

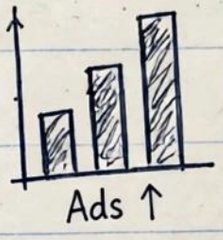

Content brings visitors, booking makes meetings.

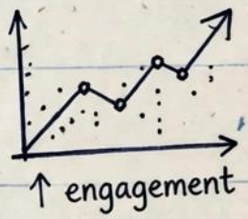

Class 06

Finish - Social and Ads.

- Build a social media presence.
- Share your work regularly.
- Pick low cost keywords for ads.
- Avoid cheap clicks from wrong places.
- Focus on people who can buy.

Key Takeaway

- Reach the right people, not just more clicks.

Class 07 Notes

Learn AI with Hisham - 22 Oct 2026

- Monthly calendar and daily posts.
- Plan once for the whole month.
- Post every day with Claude.
- Mix images and videos.

Key Takeaway:

Plan the month, then post every day.

Class 07

Step 1 - Plan the Month

- Make a monthly calendar.
- Decide a topic for each day.
- Mix images and videos.
- Keep the schedule steady.

Key Takeaway

- A calendar turns posting into a habit.

Class 07

Step 2 - Claude Agent

- Give Claude the calendar.

- Let the agent make posts on schedule.

- Check each post before it goes out.
- Fix mistakes before posting.

Key Takeaway

- Agent makes, you check.

Class 07

Finish - Grow Daily.

- Post every day.
- Watch what works best.
- Repeat the good topics.
- Keep your social presence alive.

Key Takeaway

- Daily posts build presence.

Class 08 Notes

Learn AI with Hisham - 23 Oct 2026

- Create social platforms.
- Automate calendar and posts.
- Use Claude agents.
- Post on schedule.
- Check your traffic.

Key Takeaway

- Build once, automate, then check.

Step 1 - Social Platforms

- Create Facebook and LinkedIn pages.
- Keep the business look consistent.
- Link pages to your website.
- Show the same business everywhere.

Key Takeaway

- Same business, everywhere.

Step 2 - Automate Posts

- Give Claude the calendar.
- Schedule posts in advance.
- Let the agent handle routine replies.
- Check scheduled posts before they go live.

Key Takeaway

- Automate routine, keep control.

Class 08

Finish - Check Traffic

- Check organic social traffic.
- Check organic search traffic.
- See who your audience is.
- Adjust keywords and topics.

Key Takeaway

- Traffic tells you what to repeat.

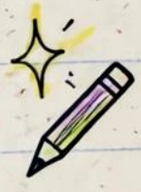

Today's Class Notes

Learn Video Animation with Claude and Flow

- Today's class: make animated videos with AI

- Three tools used: Claude, Google Flow, Higgsfield

- Start in Claude, then make video in Flow

- Keep clips short at first, save credits

- Put an AI label on AI-made videos

Key Takeaway:

Learn the full workflow, then practise it yourself.

Step 1 - Start in Claude

- Make a project in Claude first
- Plan your video idea and story there
- Keep the idea simple and clear
- Ask Claude to edit and improve it
- Use the improved plan for your video

Key Takeaway:

A clear plan in Claude makes the video easier.

Step 2 - Make Video in Flow

- Go to flow.google.com
- Describe the scene in simple English
- Say who is there and what happens
- Make short clips first, not long ones
- Build the clips like a movie trailer

Key Takeaway:

Short, clear scenes save credits and look better.

Finish and Share

- Voice work: ElevenLabs, video work: Higgsfield
- Check each clip before you use it
- Put an AI label on AI-made videos
- Do not buy tools from random resellers
- Practise yourself, do not just copy

Key Takeaway:

Today we animated. Now make your own first video.

Build AI Products with Claude

Learn AI with Hisham - 27 Oct 2026

- No coding needed, Claude builds for you.
- Start with a real problem, not a tool.
- A product is something useful people will pay for.
- From idea to product, step by step.

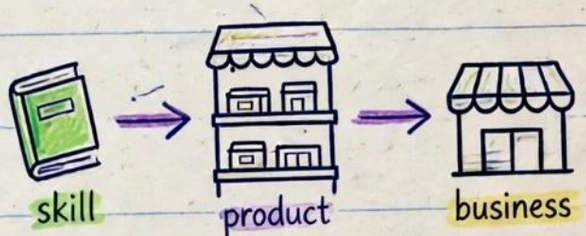

Key Takeaway

You do not need to be a coder to build a product.
You need a problem worth solving.

Skill First, Then Sell.

Learn AI with Hisham - 27 Oct 2026

- First learn a skill, then sell that skill.
- No skill means nothing to sell, only waiting.
- Skill, then product, then business, in that order.
- Practice daily and show your work.

Key Takeaway

If your shop has no product on the shelf, what will you sell?

Business Mindset

Learn AI with Hisham - 27 Oct 2026

- Money follows work, not wishes.
- Spend on your business, then it grows.
- Ask for market access, not free help.
- Build for the market, not for applause.

Key Takeaway

Do the work first, money comes as a result.

Take It to the Market

Learn AI with Hisham - 27 Oct 2026

- Make automations, apps and agents with Claude.
- Goal: 10,000 to 50,000 champions in Pakistan.

- Take your product to the market, do not hide it.
- Money is the by-product of success.

Key Takeaway

Build something, take it to the market, and let success bring the money.

STEP 1 OF 6

FIND THE IDEA, SELECT A PRODUCT

Learn AI with Hisham - 28 Oct 2026

1. CLASS DISCUSSION

In this class, Sir Hisham opened ChatGPT and said "I want to make a digital solution,"

ChatGPT gives lots of ideas

2. BRAINSTORM – 3 IDEAS DISCUSSED

1. School management system
2. Clinic system
3. ERP and project management

3. THE DECISION

For this project, we select LMS,

- beat the market with a Pakistani price,
- do not copy Odoo monthly price,

Audience can choose any product as per their interest

Brainstorming first, product building needs effort, it is not easy

STEP 2 OF 6

THE LMS, BUILT LIVE IN CLASS

Learn AI with Hisham - 28 Oct 2026

1. CLASS CONTEXT

claude

In this class, Sir Hisham told Claude to build the LMS, and removed the instructor studio to keep the cost low

2. FEATURES DISCUSSED

Courses → Communities per subject → Teacher login → Video and PowerPoint → Exams →

3. THE OUTCOME

For academies to present to, students learn online, online, teachers manage from the back end

- academies can use it to present to students
- students learn online
- teachers manage from the back end

In this class, the LMS was built in about 30 to 40 minutes in the background while the class continued

STEP 3 OF 6

CLAUDE DID THE TECHNICAL WORK

Learn AI with Hisham - 28 Oct 2026

1. WHAT SIR HISHAM DID NOT DO

In this class, Sir Hisham did not learn Docker, security, or subdomain details himself

2. TECHNICAL WORK CLAUDE HANDLED

Installation

Hosting setup

Facebook Pixel setup

3. THE FOCUS

His energy stayed on the product and the selling, not on technical details

In this class, the point was that energy was not wasted on work Claude could do

STEP 4 OF 6

THE SALE CAME AFTER FOLLOW-UP

Learn AI with Hisham - 28 Oct 2026

1. WHAT HAPPENED IN CLASS

2000-3000

Facebook and LinkedIn ads were seen by 2000 to 3000 people, and nobody called and nobody filled the form

2. RETARGETING KICKED IN

Facebook Pixel remembered the visitors

and those visitors were retargeted

3. THE FOLLOW-UP REALITY

- 3 to 6 follow-up messages
- 80 percent of businesses need 5 follow-ups
- 44 to 48 percent quit after the first ad
- retargeting cheaper than a new client

all numbers as spoken in class

In this class, the sale came after follow-up, not after the first ad

STEP 5 OF 6

DOMAIN, HOSTING, AND MONTHLY PRICE

Learn AI with Hisham - 28 Oct 2026

1. CLASS DISCUSSION

In this class, domain was explained as land and its address,

hosting as the house built on it, on a Hostinger VPS

Hostinger VPS

2. LIVE DEMO

LMS dot com example, the live website was shown on a laptop or tablet to the next customer

3. PRICING & MODEL

Provider kept backup and data,

- teachers and students only logged in,
- charge per student monthly,
- 2000 children at 10 rupees per child

as spoken in class

In this class, one VPS held many schools

STEP 6 OF 6

TAKE IT TO MARKET, SELL TO THE WORLD

Learn AI with Hisham - 28 Oct 2026

1. CLASS DISCUSSION

In this class, making the product alone was not enough, the product was taken to the market

2. SELLING DISCUSSED - 4 WAYS COVERED

Sell in Pakistan → Sell online → Sell offline → Sell to the world

3. THE NEXT MISSION

The next mission discussed was even harder,

- build your own products
- Pakistan Airbnb
- Tourism sharing
- Bike sharing
- Own Netflix
- Own LMS

In this class, the closing call was to take the product to the market and sell it to the world

Creating a SaaS LMS and publishing it LIVE

- ilmdiya.com is a SaaS LMS portal for schools and academies
- Website, then VPS, then Live, for real institutions to use
- Value: a school gets a ready branded portal, no need to build software from zero

Website

Front-end / User site

VPS

Hosting /
Virtual Private Server

School

Schools & Academies /
Real users

Goal: Launch live for real institutions to use →

Key Benefit: Ready-to-use branded portal, no custom software build required

Class 12, How the LMS works, Page 2 of 4

Teacher publishes a lecture in one click

Student gets a phone notification and worksheet

Assignments marked, gradebook fills itself

Live classes by Zoom or Meet

A	Name	Grade
1	Ali	90
2	Sara	85
		↓

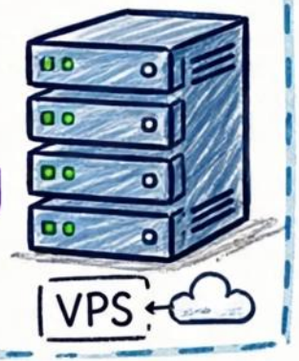

bulk import from a spredsheet

Owner sees one dashboard, bulk import from a spreadsheet

Value: work done once in one place, no chasing on WhatsApp

Class 12, VPS and live deployment, Page 3 of 4

- VPS is your own virtual computer at a hosting company

- Ubuntu is a Linux operating system, open source and free

- Domain ilmdiya.com is pointed to the VPS

- Claude finishes the server setup and points the domain

- Docker and Kubernetes are named, not taught, Claude does that work

handled by Claude →

- **Value**: control, and a non-technical founder can go live without learning every detail

Result: live & running! ✓

Class 12, SaaS model and assignment, Page 4 of 4

SaaS Service • Management

- Provider handles backup and maintenance, school only logs in

Pricing & Branding

- No per-student fee, own name, logo, and portal

Email Setup

- Professional email forwarded to Gmail → to Gmail →

Google sign-in

- Google sign-in live, teacher is owner and super admin,
- wrong secret rejected then redone

Not ready yet:

- quizzes
- exams
- attendance
- fee records
- result cards

Weekend assignment:

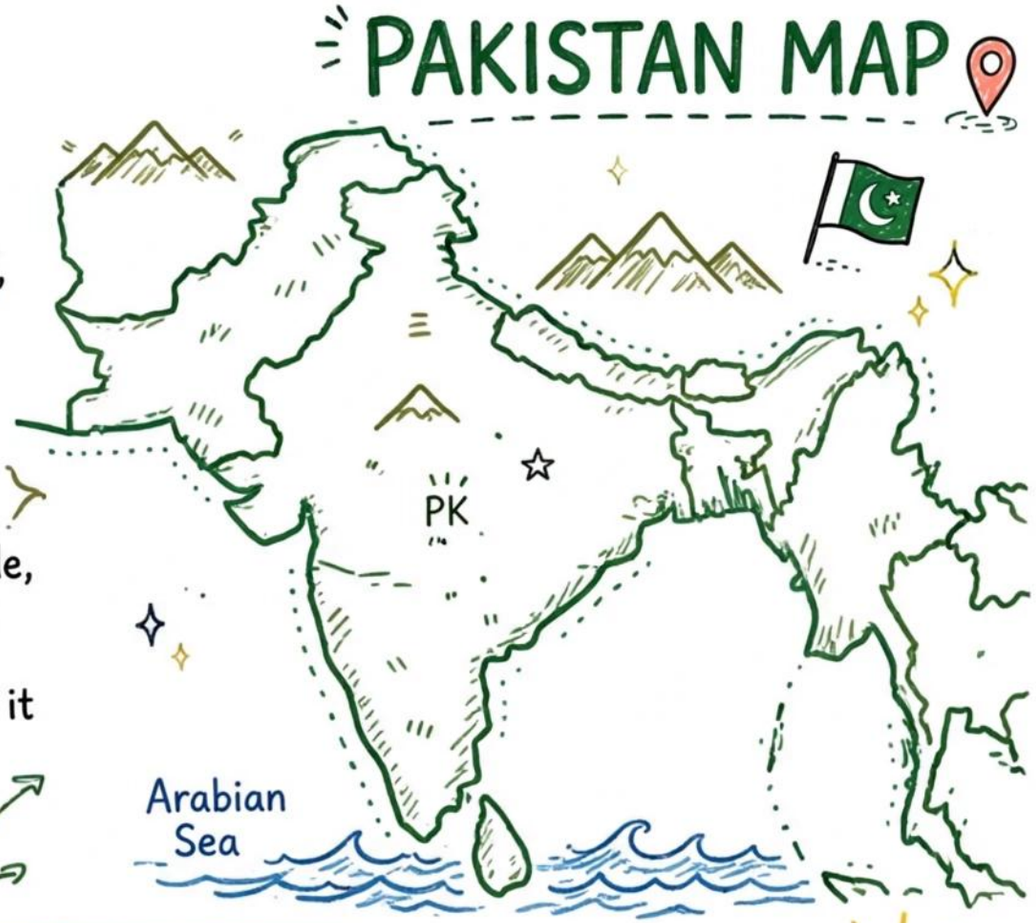

- make a video by tomorrow evening,
- start the application over the weekend

Sat Sun

Value: watching turns into building

Finalizing SAAS and publishing LIVE

- My Pakistan video winner will be announced on Wednesday
- 500,000 rupees prize for an amazing idea will be discussed on Thursday
- Prize hint in session: based only on the idea itself, branding in the winners name, full details on Thursday as spoken
- Separate: Pakistani startup ideas collected in one central place, to be presented together, for national recognition
- Separate cost to build: about 20 dollars for Claude, VPS about 100 dollars a year, total under 40,000 as spoken
- Value: the idea is valuable, not the money to build it

Key focus:
- Idea greater than Implementation cost

Goal: Finalize, Publish LIVE

Prize Medal

Idea Bulb

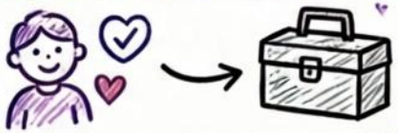

Ideas that solve real problems, Page 2 of 4

3 November 2026 session

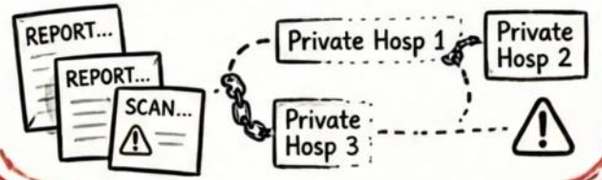

- See a problem and solve it,
- local problems need local solutions

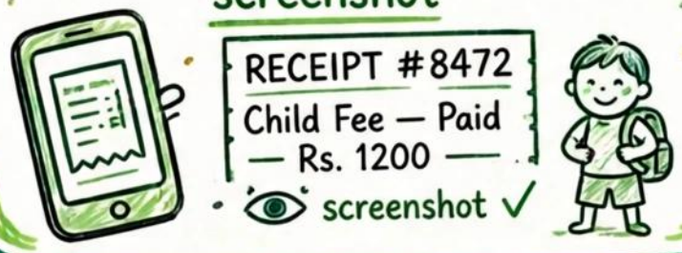

- Clients do not know the tool,
- sell the solution, not the tool

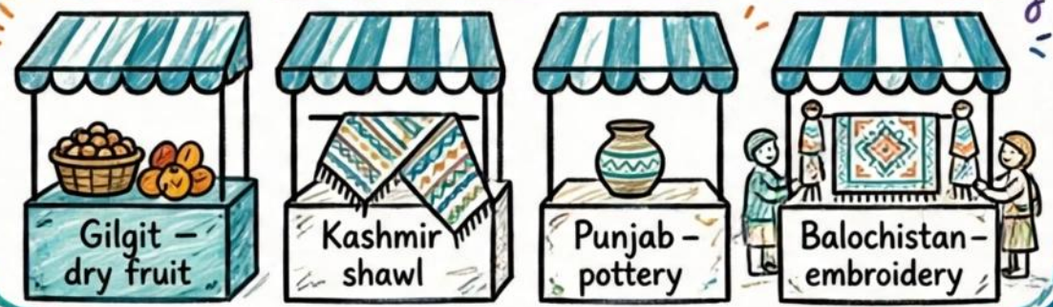

- Hospital system: old reports, blood tests,
- scans lost across private hospitals

- Fee app: pay a child fee direct,
- no middleman, donor sees the screenshot

- Heritage marketplace: products from Gilgit,
- Kashmir, Punjab, Balochistan in one place

- Value: a real problem makes a real product

QA agent finalizes the app, Page 3 of 4

QA agent finalizes the app

3 November 2026 session

- QA agent logs in by Google or direct sign-up

Google direct sign-up

- Creates an academy, fake teachers, fake courses, fake students

fake teachers fake courses fake students

- Tests the whole journey like a real new user, and like an attacker

- Tests the whole journey like a real new user

- Tests the whole journey like an attacker

- Returns a PowerPoint walkthrough and a PDF report of what was done and tested

robot tester

- **Safety rule**: never test on the live site, use an exact copy on a test server

test server
exact copy on test server

live site

- Delete all fake users later, or Google indexes test data and trust is lost

remember!

Lesson as spoken: testing is the ignored million-dollar part, an app is not done when built

Checklist before finish:

- ☑ All tests run on test server
- ☑ Report generated (PPT + PDF)
- ☑ Delete all fake users

QA report and what to fix next, Page 4 of 4

3 November 2026 session — QA report and what to fix next

QA REPORT as spoken:

- 92 checks
- 24 security and privacy checks
- 90 screenshots

Role tests:

- student in teacher account
- teacher in student account
- rival cannot bypass sign-in

Sign-up in 3 ways:

- direct - Google - CSV import

Missing piece:

- welcome popup and walkthrough tour with toolipts, own logo and colour

Assignment from phone, marks, live class progress and real numbers

Fix next:

- [ ] forgot password
- [ ] student attendance Monday to Friday

→ Mon Tue Wed Thu Fri

M T W T F

- [ ] monthly record for teacher and owner

→ Next:

- 3 participants to come
- jury to decide a winner
- tomorrow video explains why

tomorrow →

Value:

testing turns a built app into a trusted app

Class 14 Notes

Contest Winner + SAAS, Learn AI with Hisham - 6 November 2026

Theme, highlighted:

- Pakistan has stories.
- Pakistan has problems.
- Pakistan needs solutions.

Intro: This session is a journey from showcasing Pakistan's talent and diversity to exploring local business opportunities and startup ideas.

Chapter 1: Pakistan Through People's Eyes.

- The My Pakistan video contest.
  Participants presented Pakistan through their own cities, regions, culture and creativity.
- Winner: Fawad Khan, KP, Mehmaan ka Safar, 9.85 / 10.
  I came as a guest, I leave as family.
  A story about Pakistani hospitality and the connection between guests and hosts.
- Maria, 9.75 / 10, Mere Pyare Pakistan, a poem.
  Her script scored 10 / 10.
- Sherzad, Gilgit-Baltistan, 9.7 / 10.

Key Takeaway

- The winner was not just a video. It was a story of hospitality that people remembered.

Scores are as spoken in the session, not externally verified.

Class 14 Notes

Contest Winner + SAAS - 6 November 2026

Chapter 1 continued

- Farhan, Nowshera, 9.5/10
- Mian Farooq, plastic-pollution message, Saif-ul-Malook area, 9.5/10
- Hassan Raza, Manga Mandi, 9.5/10
- Adnan Tariq, Taunsa Sharif, 9.5/10
- Aamir Mubashir, Rawalpindi, 9.5/10
- Muhammad Hassaan, Ghakhar Mandi, 9.3/10
- Sajeel Ali, Islamabad, 13 years old, 9/10
- Muaz Ibrahim, Peshawar, 8.5/10
- English-narrated Pakistan overview, creator not named, 8.5/10
- Muhammad Ahsan, Tando Adam, Sindh, 8/10
- Safwan Balti, Gilgit-Baltistan, 8/10
- Bakhtawar, Quetta, 7.5/10

Bagh, Azad Kashmir, and Gwadar, Balochistan, score not established in the session.

Key Takeaway

- Many cities, many stories. One Pakistan, shown through its own people.

Scores are as spoken in the session, not externally verified.

Class 14 Notes

Chapter 2: A Digital Map of Pakistan.

A Craigslist-inspired portal, a proposed vision, not a live platform.

Journey: Pakistan to Province to City to Local Video.

Craigslist has about 148 million monthly traffic, as spoken.

The platform could also connect local businesses through services, jobs, and e-commerce products.

Chapter 3: Local Problems, Local Solutions.

Local problems require local solutions.

Examples: Zameen.com, PakWheels, inDrive.

Three earning opportunities:

1. service industry
2. startup accelerator / incubator
3. e-commerce

- Roadshow in 8 cities:
- Quetta, Gujranwala, Lahore, Multan,
- Bahawalpur, Karachi,
- Rawalpindi / Islamabad area, Swabi.

Key Takeaway

- Local problems need local solutions, not copied solutions.

Scores are as spoken in the session, not externally verified.

Class 14 Notes

Chapter 4: Turning Ideas into Startups.

- InnoCollab.pk demonstration.
  How startup ideas are submitted.
- How submitted startups can be explored and searched.
- Competitor identification.
- Idea evaluation.
- Estimated success rates.
- Mentor signup required for viewing the startups.
- 322 startups as spoken.
- Before submitting, study Starter Story, its YouTube channel and website, acquired by HubSpot as spoken. Look at its stories, your idea should be like those.
- Hisham asked students to submit their startup ideas by Monday.
- Pakistan has stories.
- Pakistan has problems.
- Pakistan needs solutions.

Key Takeaway

- An idea is the start. Submit it, and let it be tested.

Scores are as spoken in the session, not externally verified.
